

Dear Valued LIDS Sports Group Vendor:

Subject: Macy's Catalogue Data Compliance Program

LIDS Sports Group and Macy's have partnered to open licensed team sportswear departments in Macy's stores and online.

In an effort to provide the most efficient exchange of business data between our companies, OpenText GXS presents an offer to streamline and standardize the way our businesses exchange product data.

The OpenText GXS Vendor Catalogue Data Compliance Program, designed specifically for Macy's vendors, is a 30-day compliance cycle that includes specialized Macy's documentation as well as informational and review sessions with the Implementations Team.

In addition to registering to the GXS Catalogue and granting access to LIDS and Macy's, please make sure you have successfully completed the Macy's data compliance program as well.

Failure to comply with Macy's may result in LIDS not being able to purchase merchandise from your company. Please visit <http://www.gxs.com/macys/compliance> for more information.

Also, please note that until completion of the rollout we ask that you maintain your current processes of providing product data to LIDS associates as requested.

Thank you,

Megan Hayes
Product Operations Manager – LIDS Sports Group
