

Issue 23: May 2015

## What's in It for You?

OpenText has a long-standing partnership with SAP® because when we work together, we work better for you. Get some details on the how and why below as we look into our SAP solution, especially Business Center, which we just announced at the SAP user conference, SAPPHERE NOW.

Innovation Tour has only two more stops—if we're in your area of the world, join us for a day of innovation and experts. And we've got more details about our plans for Enterprise World in Vegas. Learn more about how OpenText and SAP work better together in this issue!

## Build Your Knowledge, Build Your Strategy

### SAP Solutions

For more than 20 years, OpenText and SAP have [worked together](#) to help companies manage their ever-growing amount of digital data. SAP leads the market in enterprise application software, and OpenText is the recognized leader in managing unstructured information in the context of business processes. Together, we have built a [strategic partnership](#) of co-development and cooperation focused on growth, tangible customer value, and combined thought leadership.

OpenText is also the recipient of a [2015 SAP Pinnacle Award](#) as the Solution Extension Partner of the Year, which recognizes our outstanding contributions as an SAP partner. In fact, we have won eight SAP Pinnacle Awards in the past seven years! How's that for math? (One year, we won two.)

## Keeping You in the Know

### OpenText Business Center for SAP® Solutions

Manual business processes are clunky. It's slow, it's inefficient, and sometimes, things get lost. If you could speed up your workflow

implementation by an estimated 5 to 10 times, would you? Of course you would. Improve your time-to-market by automating your processes across SAP Business Suite software with [OpenText Business Center for SAP Solutions](#)—it digitizes the capture, approval, and processing of workflow documents running in SAP software.

### New Solutions for SAP HANA

Want better insight and more value from your content? Attendees at SAPPHERE NOW do. They were excited about SAP's S/4HANA platform, and we've recently released [HANA integrations](#) for SAP Document Presentment and SAP Invoice Management. Both are designed to deliver deeper insight and content value, enhancing an organization's ability to make more strategic decisions.

### More Tempo Box Choices

Information isn't very helpful if you don't know about it. You need to share and synchronize both personal and SAP enterprise content across different platforms and devices throughout your enterprise.

Tempo Box Value Edition and Tempo Box Premium are secure solutions for sharing content. [More soon!](#) (Don't forget that you can receive **Tempo Box free** if you're an SAP Extended ECM 10.5, SAP Archiving, or SAP Document Access customer!)

### Discover the Power of the OpenText Cloud

Cloud technology is offering organizations new ways to control costs, manage resources, and improve operational efficiencies. No longer do organizations discuss if cloud has a place, but rather what is their cloud strategy and who are their cloud partners. The OpenText Cloud is designed for enterprise information management solutions and is supported by a global, scalable, and secure infrastructure with data centers around the world.
